Welcome to Comfort Products, Inc.

Welcome to comfortoandp.com. We are a manufacturer of high quality knitted goods for the orthotic and prosthetic industry. We sell our products exclusively to health care professionals. Feel free to contact us with any questions about our products. If you are not a health care professional, but are interested in a product that we manufacture, we will be happy to refer you to orthotists or prosthetists in your area that are familiar with our product line.

Our website was designed to make user-friendly information readily available to the healthcare professional. A partial listing of our product line is currently included on the website, with a full listing to be completed in the near future. Check back often for our latest additions. Be sure to check out the download section of the site for printable full color product flyers of some of our most popular items.

Comfort Products, Inc. is committed to providing the best knitted products with the latest innovations and highest quality for wearers of orthotic and prosthetic devices. We believe that this commitment is unparalleled in the world of orthotic and prosthetic knitted goods today. We have been knitting since prosthetic socks were called stump socks, since a prosthesis was known simply as an artificial limb, and an orthosis was known as just a brace. Times may have changed, but our commitment to quality and value has not.

When you need the latest innovations, highest quality and best overall value for your knitted orthotic and prosthetic products there is really only one choice. Comfort Products. We live up to our name every day!
