

**COMFORT**  
**—Endurance!**<sup>TM</sup>  
**ZipSleeve**

**Introducing the newest member of the  
Comfort Family of Endurance Suspension Sleeves**

The Comfort Zip Sleeve joins the family of Comfort Endurance Suspension Sleeves to **“add a little zip”** for geriatric patients wearing suspension sleeves. Gone are the days for the geriatric patient with the struggle of tugging and rolling endlessly to get their sleeve in place. Simply zip it up!

Like all of the Comfort Endurance Suspension Sleeves, Zip Sleeves are made of a higher grade of neoprene than most of the neoprene suspension sleeves available on the market. The higher quality is obvious when you take time to feel an Endurance suspension sleeve and compare it to others. It has a much smoother feel, and is a much tougher and more durable neoprene material than others. Endurance sleeves also have a rugged outer nylon cover. Every Endurance suspension sleeve is manufactured using an intensive blind stitching and gluing process that greatly reduces seam failure.

Sizes, prices and part numbers shown on the back of this page.

Available in Black or Beige

**Custom colors available for an additional charge!**

*Suggested L-Codes for Comfort Endurance Suspension Sleeves are L-5674 or L-5675*

# **COMFORT** **—Endurance!**<sup>TM</sup> **SUSPENSION SLEEVES**

Comfort Endurance Suspension Sleeves are made of a higher grade neoprene than most of the neoprene suspension sleeves available on the market. It is very easy to distinguish the higher quality when you take time to feel an Endurance suspension sleeve and compare it to others. It has a much smoother feel, and is a much tougher and more durable neoprene material than others. Endurance sleeves also have a rugged outer nylon cover. Every Endurance suspension sleeve is manufactured using an intensive blind stitching and gluing process that greatly reduces seam failure. With three styles and two stock colors available, there is an Endurance sleeve that is right for everybody! Custom colors are also available for an additional charge.

***When only the best will do,  
trust Comfort Endurance Suspension Sleeves!***

<p style="text-align: center;"><b>Comfort Endurance <b>CRITERION</b></b></p>  <p>The <b>CRITERION</b> features a smooth skin lining that gives superior comfort against the skin and reduces the chance for popliteal bunching. For patients without strenuous activity levels, the <b>CRITERION</b> is an excellent choice for comfort and durability. For highly active patients, try the Endurance SPORT. For geriatric patients, try the Endurance ZipSleeve.</p>	<p style="text-align: center;"><b>Comfort Endurance <b>SPORT</b></b></p>  <p>The <b>SPORT</b> has all of the features of the CRITERION with the added benefit of a nylon lined center section to reduce abrasion. This design allows the sleeve to give excellent suspension in even the most demanding of conditions. For patients with less active lifestyles, try the Endurance CRITERION. For geriatric patients, try the Endurance ZipSleeve.</p>
