

EPOXY PUTTY

Distributed by Comfort Products

Epoxy Putty from Comfort Products is available in three types to handle virtually any job. Each is available in a convenient stick form with the base resin surrounding the special curing agent. Simply twist off the desired amount and knead by hand to a uniform color and it is ready to use! Sets hard in just minutes. The unused portion can then be stored in the handy container tube where it will remain fresh until needed.

QUIKWOOD®
EPOXY

QUIKWOOD Epoxy is ideal for permanent wood repairs. It stays in place, does not run or sag, and does not shrink or pull away. It has the same density as wood, and even floats, though it is much stronger than wood. It sets in 30 minutes and can be drilled, sanded, carved, and stained. It is perfect for rebuilding and reshaping wood.

Part Number: EPQW

FASTSTEEL®
Steel Reinforced Epoxy Putty

FASTSTEEL Epoxy is steel reinforced making it extremely tough and durable with exceptional adhesion to a wide range of metals. It sets within minutes and can be filed, tapped, or machined in 1 hour. It is ideal for repairs and the rebuilding of parts, sealing leaks, filling holes, fabrication, or to hold fixtures. The perfect solution for metal repairs.

Part Number: EPQS

REPAIRITQUIK®
EPOXY PUTTY

REPAIRITQUIK Epoxy is a great general purpose epoxy. It will plug and seal holes and leaks in most materials and even works underwater. It can be used with metals, ceramics, wood, glass, masonry, and most plastics.

(However, not for use with Polypropylene or Polyethylene).

REPAIRITQUIK sets in minutes and can be sanded, drilled, or machined within 1 hour. Also for use with electrical connections, custom sealing gaskets, plumbing repairs, glass, and ceramics. Perfect for all of those odd repair jobs.

REPAIRITQUIK when you need to repair it quick!

Part Number: EPRQ

When you need epoxy for repairs, stick with a name you can trust. Comfort Products.
