

# Dacron Felt

*From Comfort Products*

Dacron Felt from Comfort Products is made from very high quality Dacron ensuring uniformity of thickness and density. Used as a layup material for plastic laminations, it is an excellent material for producing a rib free inner surface.

Dacron Felt from Comfort Products is available in 1/8" and 1/4" thicknesses. Both are sold in 25 yard rolls with a 36" width.

<i>Dacron Felt</i> <i>From Comfort Products</i>			
Felt Thickness	Weight		Part Number
	Per Square Foot	Per Square Yard	
1/8"	1/2 ounce	4 1/2 ounces	DF5
1/4"	1 ounce	9 ounces	DF1

At Comfort Products, living up to our name every day is more than just a slogan.

It's our way of life and a promise to you!
