Childrens **O**rthotic and **P**rosthetic **E**xcitement **S**ocks
Socks made for the exciting lifestyle that every child should enjoy!

The line of pediatric products available from Comfort Products continues to grow! We remain focused on your needs, and on the needs of the children that visit your facility. We understand that you need to have the finest products with the latest practical innovations. We also understand your need for all products to be affordable.

**Friendly and knowledgeable
customer service
is only a phone call away.**

Our customer service representatives have many years of experience and understand our products, and your needs.

Comfort has been an innovator for almost 100 years. Our traditions began in 1907. However, we never rest on our history or our previous accomplishments. Our team of textile experts continuously research new fabrics, techniques, and technologies so that we can provide you with the latest innovations. Quality is our first priority, though our commitment to excellent service is a very close second!

Give us a call today so that your pediatric patients can enjoy socks that are made for the exciting lifestyle that every child should enjoy!
