

# MULTI-SIZE<sup>®</sup> STOCKINETTE

by Comfort Products

Advanced features combined into a unique stockinette material!

Multi-Size<sup>®</sup> Stockinette from Comfort Products is a unique stockinette with multiple uses. Exceptionally smooth and does not run from either direction. The special features of this material leave it in a class by itself!

**Features of Multi-Size<sup>®</sup> Stockinette include:**

- Unique non-run construction prevents running from either direction
- Remarkable stretch that allows just four sizes to accommodate most orthotic and prosthetic requirements
- Exceptionally smooth and uniform surface that is free from the corrugated effect found with traditional nylon stockinette
- Ideal as the final layer of laminations to ensure an exceptionally smooth finish
- Great choice for vacuum forming for a smooth and true surface
- Can be used effectively for flexible polyurethane and similar type spray coatings
- Accommodates rapid size changes without folds or creases
- Very good companion product to Comfort SpectraCarb<sup>™</sup>
